

LIST OF THE DEAD, MISSING AND INJURED.

Known to Be Dead Last Night Were 17 Persons, While the List of the Missing, Which May Be but Another Name for Death, Reached the Number of 68—The Injured Largely in Hospitals, Number 39.

DEAD, 17.

CONNOLLY, JOHN, employee of hotel; burns and internal injuries; died at Flower Hospital.

FLANAGAN, KATE, forty years old, a domestic; Flower Hospital.

GIBSON, MRS. ADDIE, thirty-five years old, of Cincinnati; shock; died at Murray Hill Hotel.

GOODMAN, ELEANOR LOUISE, seven years old, daughter of Samuel Goodman, of this city; fractured skull; died at Bellevue Hospital.

GRANDY, MISS LASELOS, of Elizabeth City, N. C.; here on a shopping tour; burned to death.

HENRY, MRS. MORRIS P.; Roosevelt Hospital.

KIRK, NANCY ANN, seventy-two; widow of James S. Kirk, soap manufacturer, of No. 365 Ridge avenue, Chicago; died at Bellevue Hospital.

LELAND, MRS. WARREN, wife of the proprietor of the hotel; burns of body; died at Flower Hospital.

LELAND, MISS HELEN, daughter of the hotel proprietor; found dead; body identified at East Fifty-first street station.

PADDOCK, AMELIA, thirty-five years old, of Irvington, N. Y.; died at the fire; body taken to East Fifty-first street station.

SULLIVAN, MARY, died at Bellevue Hospital; body taken to No. 525 East Tenth street.

HENRY, MRS. MEHITABLE, widow of Dr. Morris P. Henry; internal injuries; died at Roosevelt Hospital.

Unknown woman, jumped from a Fifth avenue window; died at Miss Helen Gould's house; partially identified as Miss Dora Hoffman, of Baltimore, sister of C. Curzon Hoffman, president of the Seaboard Air Line Railway.

Unknown man, jumped from roof at rear of hotel.

Unknown child, thrown from window by mother.

Unknown woman, mother of child; jumped from hotel window.

Unknown woman; jumped from window; died at No. 19 East Forty-sixth street.

MISSING, 68.

ANGLIN, MRS. MARY, forty-five years, wife of T. A. Anglin, of No. 33 West Twentieth street; was visiting Miss McNaughton.

ARMSTRONG, BRIDGET, servant, No. 225 West Twenty-fourth street.

ADAMS, MRS. K. S.

BRUIT, JANE.

BRADLEY, MISS NANCY, of Plainfield, N. J.; aunt of Miss Fuller.

BOYCE, FLOESSIE, eight years, daughter of W. S. Boyce, No. 223 Eighth avenue; rescued by father; afterward disappeared.

BOYD, MRS.; inquired for by S. W. Draper, manager of New York Transfer Company.

BOYD, MISS; inquired for by S. W. Draper, manager of New York Transfer Company.

BUCKLEY, MRS. KATE; asked for at East Fifty-first street station by a Mrs. Sharrar.

BRUSH, MRS. M. G.

CLAIR, MART; inquired for at East Fifty-first street station by J. McGuire, of No. 244 East Forty-sixth street.

COIT, MRS. C. P.

DEMORASER, MRS.

DRESSLER, EVA, chambermaid.

EAGEN, MISS; lived at hotel.

RAZE, BY NEW LAW, EVERY FIRE TRAP.

So Declares Assistant District-Attorney John F. McIntyre.

To the Editor of the Journal:

The Legislature has power to pass a remedial statute covering such a case as the awful Windsor Hotel fire. It would seem to me it becomes the duty of Chief Bonner to inspect forthwith all hotels and places of amusement in this city, and when he finds, if he does not already know, where, in the event of fire, human life may be threatened, if not lost, he as the one man in the community should bring the existence of all such places to public attention.

The knowledge of such places in the city will then force public sentiment to induce the Legislature to take such action in the name of the people as will compel owners to comply not only with existing laws, but force the passage of others which will prevent in the future such a terrible calamity as was witnessed on Friday.

High Public Policy.

It is not a question of the vested rights of owners being interfered with. It is a question of public policy. The Board of Health has the power to institute an action for the condemnation of a building because its present construction may not be in accord with the present laws. This question has been tested through the Court of Appeals, and it has been held that for public policy's sake, and for the continuance of general good health in this city, it is constitutional to tear down a building by direction of the Board of Health where it is established that it is untenable and unhealthy.

Therefore, reasoning by analogy, it is proper to state that if the Legislature had the right in the one instance to vest authority in the Board of Health, in the way to which I have called attention, there can be no question that the Legislature has the same power to impart similar authority to the Fire Department or the Building Department, and invest such department with power to level any death trap.

Both Superintendent Brady and Chief

F. FORD, CHARLES.

FULLER, MRS. MARGARET, daughter of A. M. Fuller, of Philadelphia.

G. GUYON, WARREN; elevator boy, of No. 163 East One Hundred and Sixty-third street.

H. HOFFMAN, MISS DORA, Baltimore.

J. JOSE, MISS.

K. JOHNSON, MRS. D. I.

L. LELAND, FREDERICK, cousin of Warren Leland.

M. LANNY, MARY.

N. LELAND, SIMMONS, fifty years old; wine steward of hotel.

O. LINDSAY, MR. and MRS., guests.

P. LOREE, HARRY W., twenty-two years old; mail clerk at hotel; relatives are Mrs. Mary Lynch and David Lynch, of No. 212 West One Hundred and Eighth street.

Q. LOWRIE, MISS MAGGIE.

R. LYNCH, D.

S. MORGAN, MISS ANNIE TAYLOR, forty years old; inquired for at East Fifty-first street station, by A. C. Morgan, No. 35 William street.

T. MORGAN, MISS CATHERINE, of No. 448 MORAT, JENNIE, thirty years old; chambermaid; inquiry by Maria Carter, of No. 148 East Third street.

U. MCNELL, KATE.

DOCTOR COPELAND GIVES NOTICE REGARDING THE LOW FEES.

They Only Apply to Patients Commencing or Renewing Treatment Before April 1st.

Only Such Will Be Treated Until Cured at the Low Fees Which Have Been for So Long Sustained—Raising the Fees the Only Practical Way of Relieving the Strain Upon the Offices Caused by the Influx of Patients Seeking the Benefits to Be Derived from the Newest Copeland Treatment.

For a number of years Doctor Copeland and his associates in practice have given the people their services at fees so low they could not even be called nominal. Since the discovery of the cure for Deafness and since the introduction of the Newest Copeland Treatment, that reaches cases hitherto unreached and makes the cure of Deafness and Catarrh of the Air Passages still more certain, the influx of patients from all over the country has been so great as to embarrass the facilities of the offices and laboratories. The work cannot be kept up in this way without largely increased facilities, which it is inexpedient to supply. The only practical way of relieving the strain will be followed—as has already been stated in letters

to former patients—the fees will be raised to reduce the number of patients. In doing this Doctor Copeland feels it just and courteous to give adequate notice to the thousands of patients who have during the past years been treated at his office at low fees; to give adequate notice that every patient who has ever been treated at the office will be taken and treated under the new methods which have awakened the attention of the scientific world at the fees originally paid, providing they renew before April 1. This means that every patient who has taken treatment and stopped for any reason at whatever time during the present month and obtain the benefit of the new and wonderful treatment that has thrilled the world with its record of

cures. It also means that any who have been for a long time contemplating taking treatment may have the advantage of the low fees, providing their treatment is commenced before April 1. This is the notice.

The low fees which have been given during the Copeland practice in New York will only apply to those beginning or renewing treatment during this month. The books will be closed April 1. Only those patients applying for or renewing treatment before that date will be entitled to the low fees. All those, however, beginning or renewing treatment before that date will, as is manifestly just, be entitled to these fees until cured. This notice is final. It applies to all old and new patients and all diseases. It is limited only in time.

THE TREATMENT THAT CURES.

Doctor Copeland's New Treatment

That has lifted the darkness and blight of the word "incurable" from hundreds of thousands of these cases of diseases in the Throat, Bronchial Tubes and Lungs, works its curative action for two reasons:

(1) It reaches every sore spot, from the orifice of the nose to the deepest part of the lungs, to the innermost recesses of the middle ear.

(2) Instead of irritating, inflaming and feeding the fires of the disease, it soothes, quiets, heals and cures.

What is the treatment that cures these conditions once regarded incurable? By what process does it restore the diseased membrane, remove the poison and relieve the soreness of disease? Let the experience of persons cured and being cured tell.

How It Cures Catarrh.

Here is a patient taking treatment for Catarrh of the Head. He breathes the soothing medication through his nostrils, and the nasal channels open up, the stuffed-up feeling in the head leaves, and he can breathe naturally through the nose again. The dull pains across the front of the head fade away, and the nasal membrane is soothed until the inflammation and soreness are all gone. The bad odor of the breath passes away, and the lost sense of smell returns. The dropping in the throat is checked, the nose does not stop up toward night, any more, the sneezing and sniffing have ceased, the discharge from the nose grows less and less, and finally stops altogether. The disease has been checked and eradicated from the system before it ever reaches the throat. It has not been driven down into his throat or into his lungs or into his ears, as is so often done by other treatments.

How It Cures Disease of the Throat.

Here is another patient who had Catarrh in the Head. He caught cold after cold, and the disease spread down into his throat. He breathes and drinks in the disease-banishing medication. It bathes the membranes of his head and throat. The soreness of the head and throat becomes less, and the desire to hawk and spit is disappearing, the sense of taste is returning, and the voice again becomes soft and melodious. There is no more gagging and vomiting in the morning. No longer does every exposure to the weather result in a stuffed-up throat, that becomes sore and inflamed, and no longer does he find his throat and tongue dry as chips when he wakes from refreshing sleep.

How It Cures Deafness.

Here is another patient who for years had been a sufferer. Every fresh cold seemed to stay longer than former colds, and he noticed that his ears got stopped up and his hearing became duller and duller and there were ringing and buzzing noises in his ears. The Catarrh had passed upward and backward from the throat along the Eustachian tubes leading from the throat into the ear. He had visited Throat doctors and Ear doctors and Catarrh doctors, without relief. In this connection we find him inhaling the never-failing medication, and soon he notices a change. The noises in the ear stop, there is no more discharge, the hearing gets better, and finally the tubes of the ears open up and something seems to give way in the head. His hearing had completely returned. No wonder he considers the result a marvel.

How It Cures Bronchial Disease.

Here is another patient who was always sensitive to the weather. He contracted Catarrh of the Head, and it passed to the Throat, then down the Windpipe and into the Bronchial Tubes. He coughed at night so that he could not sleep; there was pain behind his breast bone and under his shoulder blades. When he coughed he brought up a frothy, grayish material, streaked with blood. He lost appetite and strength. He tried cough syrups and different medicines to no avail. He now breathes in with full inspiration the restoring and soothing medicine. The sore spots along the Bronchial Tubes heal, the cough ceases, the pain leaves. The appetite and strength return. He is again a well and happy man.

GIVEN BY DOCTOR COPELAND. Symptoms Most Frequently Presented by Sick People.

Great numbers of people suffer from the malign poisons of catarrh, as from other subtle chronic maladies, without any correct or adequate notice to the nature of their affliction. The following symptoms have been carefully arranged by Doctor Copeland to enable any sufferer to understand just what it is that ails them. Many diseases, known under various specific names, are really of catarrhal origin and nature. Every part of the mucous membrane, the nose, throat, eyes, ears, head, lungs, stomach, liver, bowels, kidneys and bladder are subject to catarrh.

The proper course for sufferers is this: Read these symptoms carefully over, mark those that apply to your case and bring this with you to Dr. Copeland. If you live away from the city, send them by mail and ask for mail treatment. In either instance, and whether by mail or office treatment, the patient may be assured of the speediest relief and cure possible to enlightened medicine.

Disease of the Head and Throat.

The most prevalent form of catarrh and results from neglected colds.
